

VX-230 Series

VHF/UHF Portable Radios

SPECIFICATION SHEET

Compact Radio with Long-Lasting Li-Ion Battery

The Vertex Standard VX-231 provides wide band coverage, more signaling features and improved ergonomics* that adds up to a better return on your investment.

Improved Portability

A radio that won't get in the way, the VX-231 is more compact and lightweight than the VX-160 series. A radio that is easier to carry with you on the job.

More Battery Power

Designed to use powerful Li-lon battery technology for longer battery life. Includes a 1150 mAh battery providing 9 hours of operation with the battery saver enabled.

Or choose the optional 2000 mAh Li-lon battery for up to 16.5 hours battery life.

Wide Band Coverage for Added Value

One radio designed to cover the full band in the VHF and upper range of the UHF bands, which provides expanded options in frequencies to use.

More Scanning Options

While many radios provide I or 2 scanning options, the VX-231 radio gives you 4 additional scanning options for greater convenience and flexibility for the way you need your radios to perform. Options include: Priority, Dual Watch, Follow Me and Talk Around scan.

Exclusive Auto-Range Transponding System – ARTS™

Only Vertex Standard radios are designed to inform you when you and another ARTS™-equipped station are within communication range. If out of range for more than 2 minutes, your radio senses no signal has been received and beeps to alert you. The base station can then alert the field unit to move back in range. A great solution to keep your workers coordinated.

 * Compared to VX-160 series.

The Vertex Standard Difference

Our number one goal is achieving superior customer satisfaction by delivering products and services that exceed your expectations. Vertex Standard radios are built to last and are backed by an industry-leading 3 year warranty — another great reason to choose Vertex Standard. Ask your Dealer for more details.

Additional Features

- · 16 channel capacity
- Two programmable keys
- Flexible channel spacing: 12.5 kHz to 25 kHz
- · Battery power save option
- Emergency
- Lone Worker
- DTMFANI
- DTMF Speed Dial
- · 2-Tone Encode and Decode
- · CTCSS / DCS Encode and Decode
- · Manual squelch adjustment
- · Radio-to-radio cloning

Accessories

- MH-450S: Speaker microphone
- MH-360S: Compact speaker microphone
- MH-45B4B: Noise cancelling speaker microphone
- MH-37A4B: Earpiece microphone
- VH-115S: Behind-the-head headset w/boom mic
- VH-215S: Over-the-head single-muff headset
- VC-25: Over-the-head VOX headset
- FNB-V104LI: 2000 mAh Li-lon battery
- FNB-V103LI: 1150 mAh Li-lon battery
- VAC-300: Desktop rapid charger (Li-lon only)
- DCM-I: Desktop charger mounting adapter
- VCM-2: Vehicle charger mounting adapter
- VAC-6300: 6-Unit multi rapid charger (Li-Ion only)
- LCC-350: Leather case
- LCC-350S: Leather case w/swivel belt clip
- CLIP-18: Belt clip
- CLIP-17E: Swivel belt clip
